ABOUT US:

Welcome to Decorio, your premium destination for bespoke steel-look doors, windows, and screens.

Behind every sleek design and flawless finish lies a labour of love—countless hours of meticulous craftsmanship and dedication, with an assured commitment to providing quality products. We diligently design and manufacture each item bespoke to embody the perfect balance of style and functionality.

With over three decades of experience in the industry as part of a larger group manufacturing doors and windows, we bring a wealth of knowledge and expertise to the table. Our journey with Decorio spans over three years, driven by the ever-growing demand for quality steel-look products.

From our advanced production hub to your doorstep, trust Decorio to redefine your space.

MADE IN BRITAIN®

ALUMINIUM OR STEEL?

What is the difference between Aluminium and Steel, other than the price?

Thermally Efficient:

Modern **aluminium profiles feature thermal breaks made of polyamide, an excellent insulator. With thermal conductivity 160 times better than steel, aluminium windows can help save you around £95 annually in fuel costs. Plus, they raise your home's internal temperature, reducing the risk of condensation.

**Excludes the Internal Collection

Low Maintenance:

Aluminium maintenance is simple. A routine 'wipe-clean' is required to keep the products looking their best. Unlike similar steel products, aluminium also avoids rust and rot, giving you more time and money to spend on the things you love.

Increased Lifespan:

Compared to steel, PVC, and timber, aluminium frames boast a longer typical replacement period of 40 years, giving you peace of mind for decades to come.

INTRO

EXTERNAL COLLECTION

Introducing our External Collection: meticulously crafted to withstand the unpredictable whims of UK weather. But fear not, these stunning pieces are versatile enough to shine, whether braving the elements outdoors or adding charm indoors.

The Decorio External Collection is specifically manufactured to include a polyamide thermal break and high performance toughened safety glass, ensuring your home is thermally efficient all year round.

Bespoke built, each item in our collection is handcrafted, allowing you to customise to your exact requirements.

When designing your doors and windows, choose from either transoms or astragal bars to ensure our doors fit seamlessly into your space.

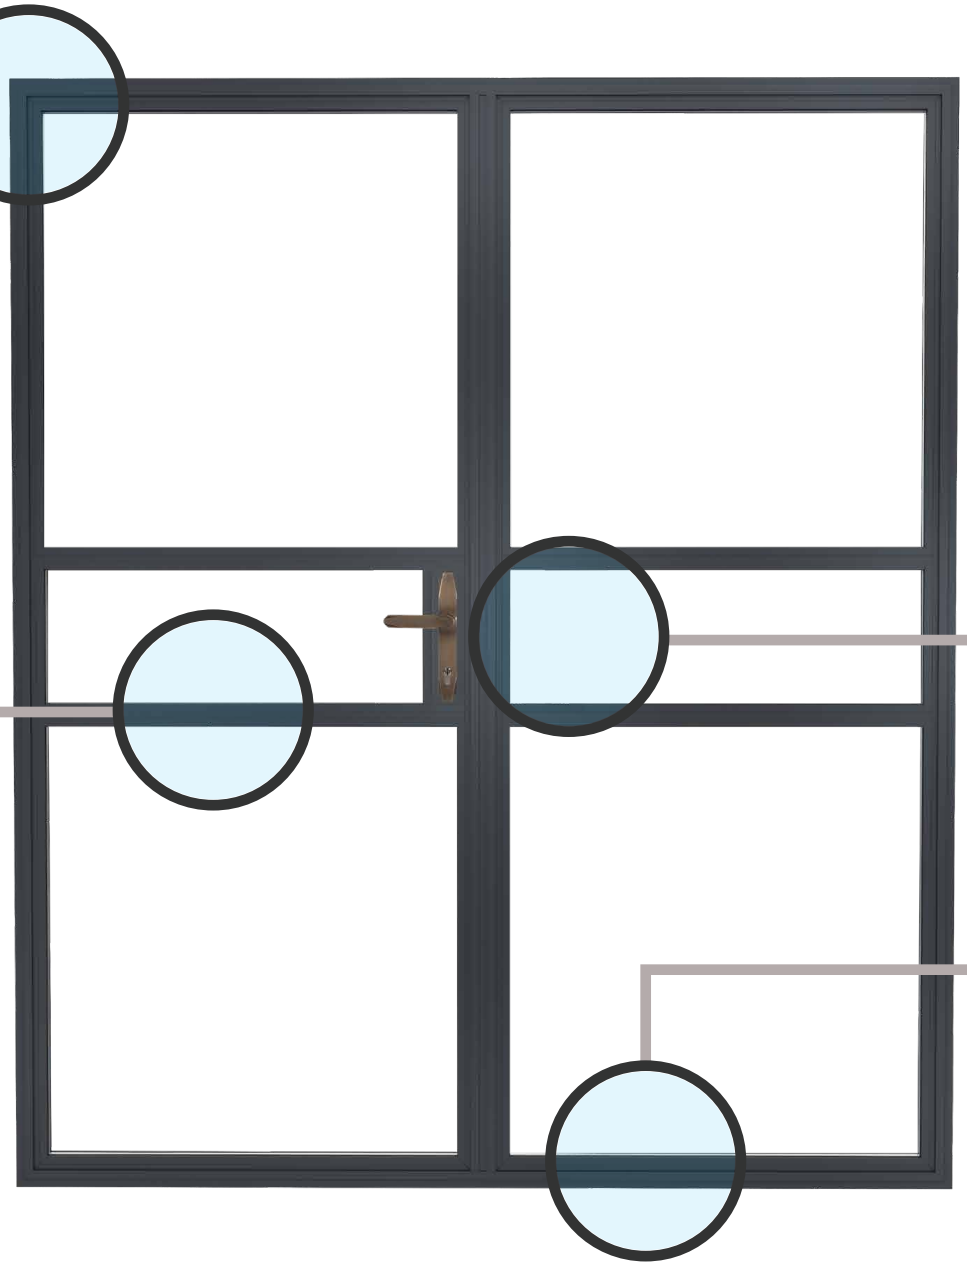

Enjoy enhanced views and natural light with slim sightlines. Our doors offer a sleek and modern appearance while maximising outdoor scenery. With narrower profiles, these doors create a seamless transition between your indoor and outdoor spaces, making your home more spacious and inviting.

All French Doors include a handle block to the primary door as standard and is adorned with your chosen handle. Meanwhile, the secondary entry point can be left with or without the handle block—the choice is yours!

Our steel-look doors boast versatile transom sections, allowing you to customise the layout. Whether you prefer more bars spanning across the doors or wish to adjust the transom height, the choice is yours for a perfectly tailored design.

With outer frame widths available in 33mm and 47mm, our heritage doors are thermally broken and compliant with PAS24 and Document Q regulations, ensuring security and energy efficiency. For added accessibility, the 33mm outer frame is available with an optional 15mm low threshold, meeting Part M regulations and providing ease of entry for those who require it.

EXTERNAL DOORS:

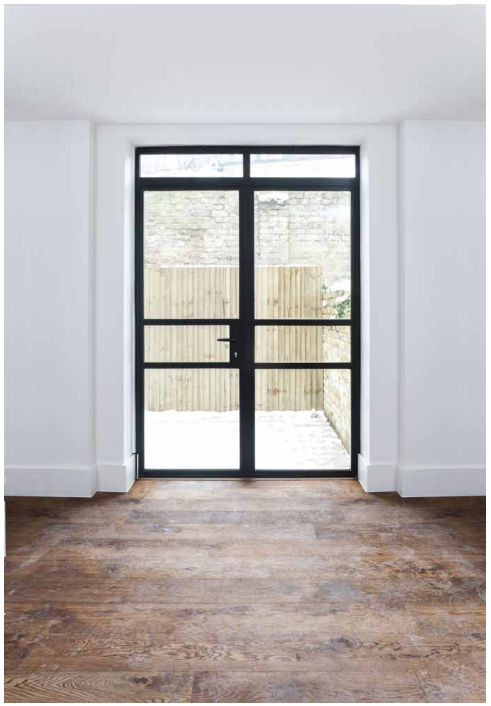

FEATURES

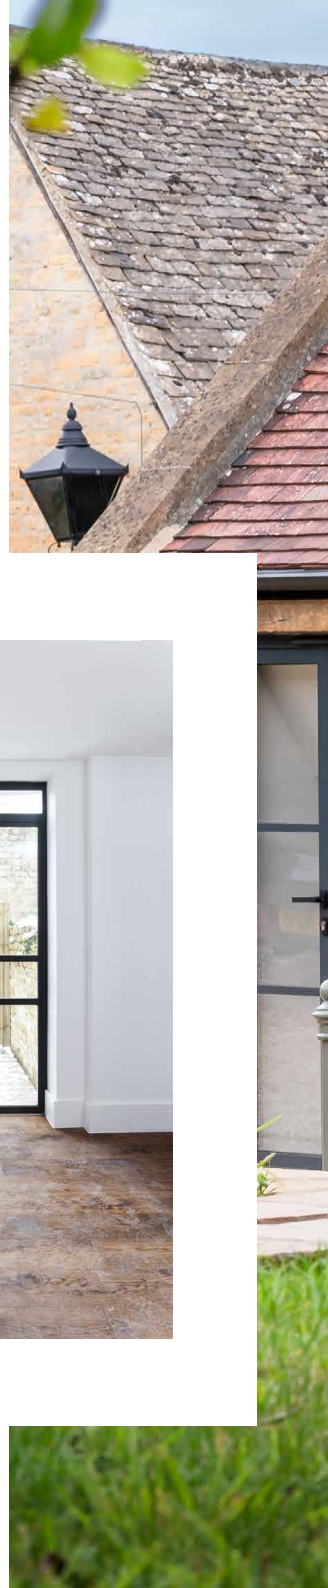

With meticulous attention to detail, we've crafted the perfect steel-look heritage aluminium doors and accompanying hardware, focusing on even the finest details. We take pride in manufacturing our doors and are confident that each element embodies historical integrity with the utmost precision.

The Decorio range of external doors provides a sympathetic solution to period properties without compromising modern performance. Handcrafted with precision engineering, they offer the durability and security expected from contemporary materials while retaining the timeless appeal of traditional design.

Offering a variety of options, including transom or astragal bar configurations, you have the freedom to achieve the perfect style for your home. Whether renovating a period property or adding character to a contemporary home, our Decorio range seamlessly integrates with any architectural style and is a truly bespoke product.

But it's not just about looks—this range offers many practical benefits, too. Our slim sightlines and low-maintenance design mean you can enjoy peace of mind knowing your doors and windows will remain looking their best with minimal upkeep. Additionally, for your peace of mind, our doors comply with essential building regulations, including Pas 24, Document Q, and Part M.

EXTERNAL WINDOWS:

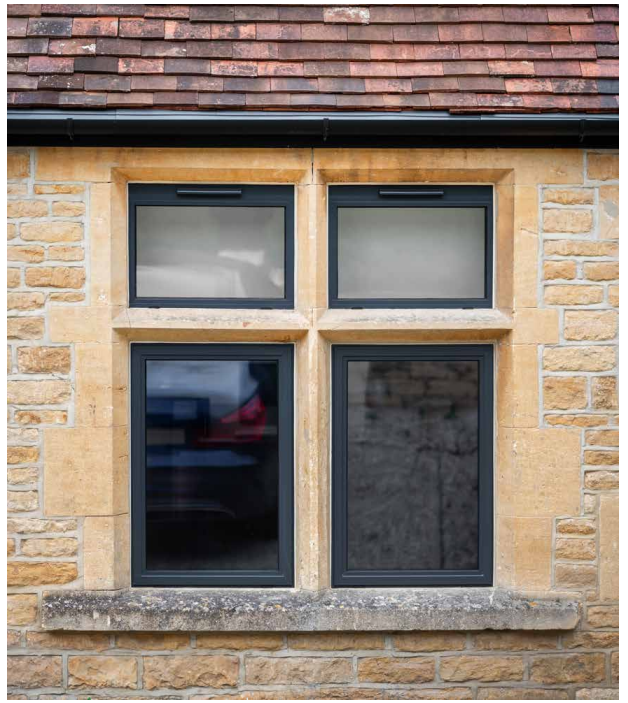

FEATURES

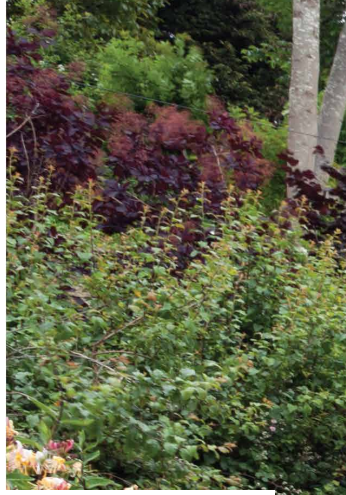

Recognising the significance of architectural harmony, we set out to create a window that mirrors the aesthetic appeal of our doors and upholds the same standards of durability, functionality, and elegance.

As the name suggests, our Decorio external window is designed for external applications and boasts all the distinctive features necessary to complement our door range perfectly.

Our external windows offer an ideal solution for listed building renovations and large-scale replica refurbishment projects. They seamlessly replace old steel or timber windows while preserving the traditional look. However, their versatility extends beyond such buildings, enhancing the aesthetics of many residential properties, old or new.

Their modular design allows for straightforward installation and either top-hung, side-hung, or fixed openings. Like our external door offering, our windows incorporate innovative polyamide thermal break technology and comply with PAS 24 and Document Q building regulations.

EXTERNAL:

FINISHING TOUCHES

The significance of hardware in crafting the ambience of your space cannot be overstated. It serves as a defining element, accentuating the style and personality of your windows and doors. The hardware you choose can seamlessly integrate with the architectural design and interior decor or disrupt the cohesive aesthetic you strive to achieve.

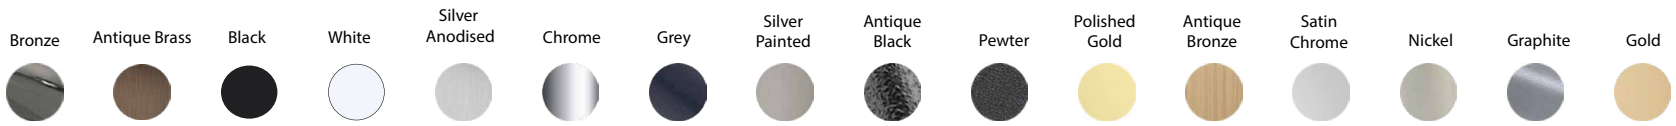

At Decorio, we recognise the pivotal role hardware plays in elevating your home's charm and character. While our external windows and doors are equipped with standard modern hardware, we offer the option to upgrade to our exclusive traditional range for those seeking unparalleled authenticity.

Our carefully curated options ensure access to hardware that complements a wide array of design visions, while adding a touch of elegance to any space.

INTERNAL COLLECTION

Introducing the Decorio Internal Collection— opening the door to style, sophistication, and performance. With its sleek steel-effect finishes and slim sightlines, our collection perfectly balances aesthetic appeal with practicality. Whether aiming to elevate the visual allure of your living space or achieve seamless transitions between rooms, our single-glazed screens and doors are designed to make a lasting impression.

All of our doors are available in hinged and sliding options, offering flexibility to suit a wide range of spaces and layouts. Whether you're looking to optimise space in a compact room or create a grand entrance in a larger area, our doors can adapt to your needs seamlessly.

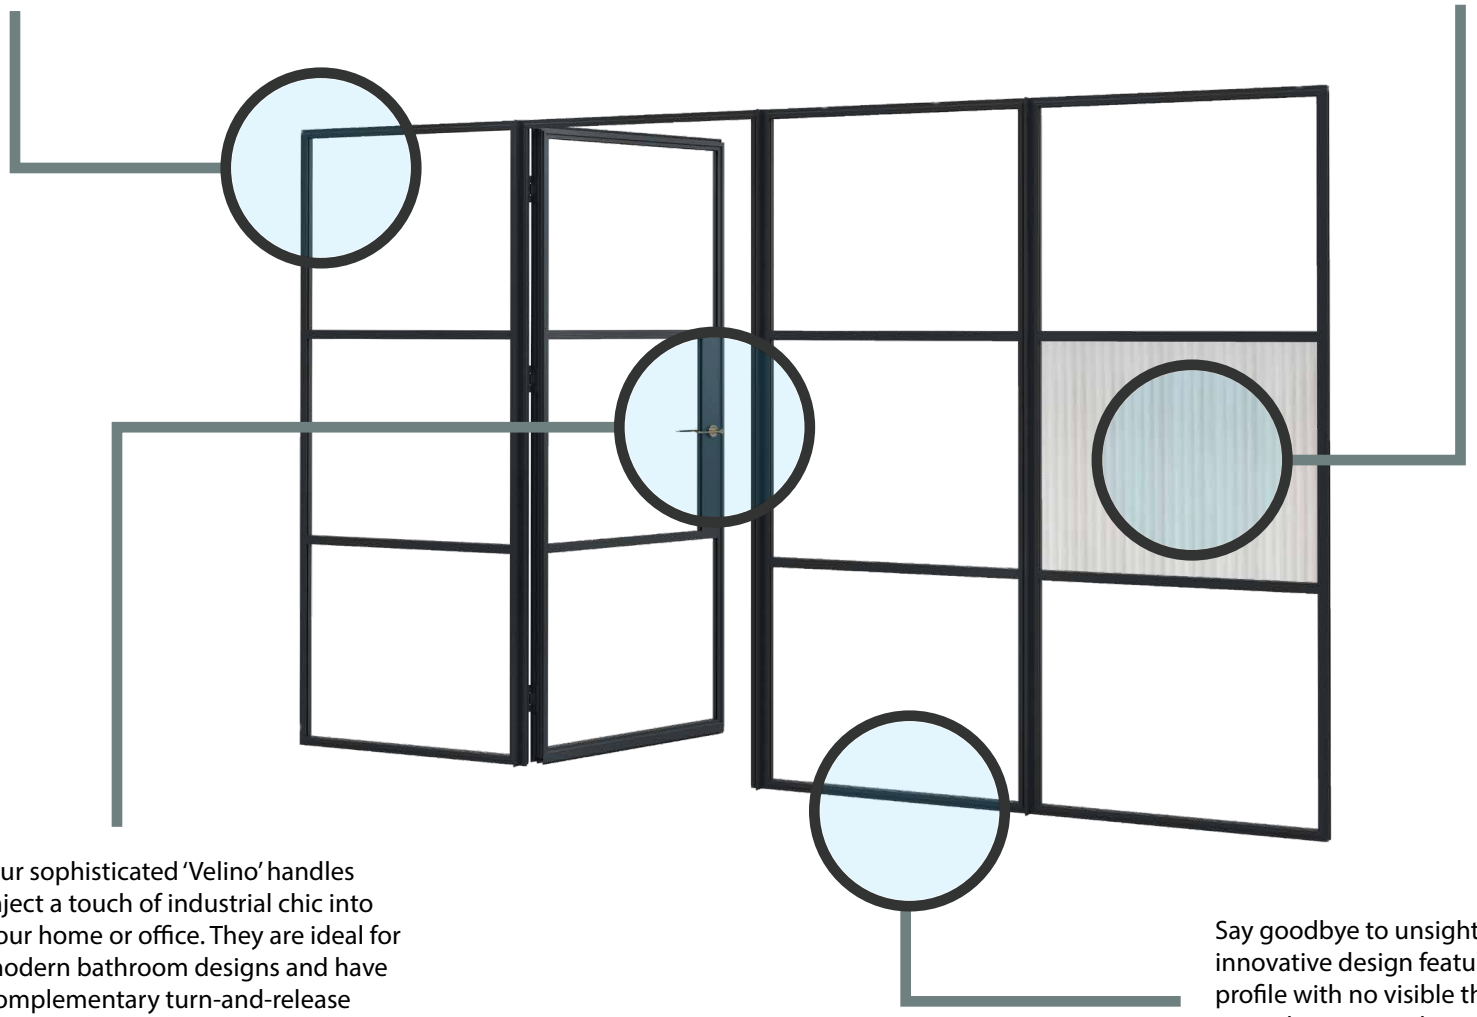

Intro: Internal Collection

Handcrafted with slim sightlines, our doors infuse your space with natural light, creating brighter, more inviting rooms that blend seamlessly into your living or working environment.

Our doors and screens are also available with a range of obscured / opaque glass, including Reeded, which is an excellent choice for office rooms or tranquil bathrooms. Inspired by the elegance of the 1930s, this glass design offers the perfect balance of privacy and style.

Our sophisticated 'Velino' handles inject a touch of industrial chic into your home or office. They are ideal for modern bathroom designs and have complementary turn-and-release locks for security.

Say goodbye to unsightly thresholds—our innovative design features a contemporary profile with no visible threshold, ensuring a smooth transition between living spaces.

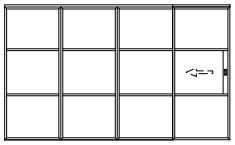

INTERNAL SLIDING DOORS:

FEATURES

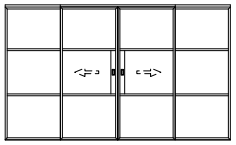

Our steel-look sliding internal doors are ideal for partitioning large areas and creating rooms within rooms. They are a smart and stylish way to create office and playroom areas with minimal disruption. These doors glide smoothly along a rail and offer adjustable closure to accommodate your preferences.

Each product in the internal collection features a single toughened safety glass to maintain a streamlined appearance. This ensures effective acoustic performance without compromising aesthetics.

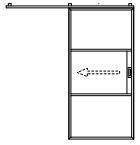

Our Decorio sliding doors are also ideal for compact spaces. They require minimal operating clearance while making a sophisticated design statement. With various configurations available, these doors seamlessly enhance the ambience of your property or workspace, delivering both practicality and style.

INTERNAL HINGED DOORS:

FEATURES

Decorio hinged internal doors have been meticulously designed to preserve the elegance of all heritage properties. Reminiscent of the classic styles from the 1930s, the doors operate on discreet hinges and can be tailored to open inward or outward, aligning with your specific spatial and aesthetic preferences.

Our hinged door collection offers a variety of configurations to suit any home, including options for both single and double doors. In the double-door setup, both doors can be opened to enhance the functionality and flow of your space. True to the authentic heritage style, the primary door features a handle of your choosing, and as an optional extra, the secondary door can be equipped with a matching backplate to maintain perfect symmetry. Effortlessly operable, the secondary door includes a simple internal latch that, once released, allows you to fully open up the area, seamlessly connecting or dividing living spaces as desired.

Internal Hinged Doors: Features

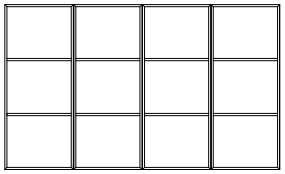

INTERNAL SCREENS:

FEATURES

Our steel-look aluminium internal screens offer a stylish and efficient solution for dividing large rooms or office spaces with minimal disruption. Unlike traditional brick-and-mortar partitions, which can be costly and time-consuming to install, our screens provide a perfect alternative. With small sighlines, light easily travels through rooms, and small, cosy sections can be calved out without any obstructions.

The screens can be easily connected to any product in the internal collection, seamlessly integrating with both sliding and hinged doors. This versatile and adaptable design suits any space. Thanks to a clever and discreet coupling system, the connection process is effortless, providing the perfect solution for any size or layout.

INTERNAL:

FINISHING TOUCHES

At Decorio, we pride ourselves on offering a wide selection of internal hardware options for hinged and sliding doors, curated to cater to all style preferences.

From modern to heritage-inspired designs, each hardware piece is carefully handpicked to seamlessly complement a wide range of unqiue aesthetics.

Moreover, we've included a range of styles that perfectly match our 'External collection' product offerings, ensuring a cohesive and harmonious look throughout your property.

With an extensive array of colours available, the possibilities for customisation are endless, allowing you to create a home that reflects your unique taste and personality.

COLOUR GUIDE:

ENDLESS POSSIBILITIES:

Colour selection isn't merely a matter of appearance; it's about establishing the ambience of your living spaces. With an extensive range of over 200 RAL & BS colours, our steel-look aluminium products ensure that your windows and doors perfectly align with your desired vision, no matter how bold or vibrant your taste may be.

However, our colour range isn't just about aesthetics; it's about longevity and practicality, too. Our aluminium powder coating is weather-resistant and low-maintenance, guaranteeing that your chosen colour will retain its vibrancy and beauty for years to come.

Choose your perfect shade with confidence, knowing that your selection isn't just about picking a colour; it's about defining your space's very identity and character for the long term.

COMPLETING THE LOOK:

MAKE YOUR HOUSE A HOME

Bring the outside in with our selection of external aluminium bi-folding or sliding doors. Crafted to create expansive openings, these doors feature slim sightlines that allow natural light to flood your interior spaces, elevating the ambience of your home or commercial property.

For those seeking seamless integration with Decorio doors, look no further. Our astragal bars can be seamlessly incorporated onto toughened glass, delivering the desired steel-effect aesthetic and ensuring your design vision is brought to life with precision and style.

If you're eager to update the front of your property, we have you covered with our range of insulated aluminium front doors. With over 70 design options, you can maintain a consistent aesthetic throughout your property, enhancing its curb appeal and making a lasting impression on visitors.

Connect with your local Decorio specialist today to explore our extensive range of products and discover the perfect solution for your renovation needs.

TIMBERLOOK:

THE PERFECT PVC ALTERNATIVE

Enhance your home's performance, aesthetics, and functionality with Timberlook flush casement windows. Our high-quality timber alternative windows offer the warmth and charm of timber without the hefty price tag.

Timberlook provides homeowners with the best of both worlds: the classic charm of traditional timber windows with the modern advantages of PVCu. It is designed to replicate the look and feel of original wooden frames, offering an elegant solution for heritage properties, period homes, and conservation areas—without the drawbacks of regular timber.

Timberlook Heritage windows are designed for modern living, offering energy efficiency and a wide selection of period colours and textured wood-effect finishes, all of which are virtually maintenance free.

Enhance your project further with our range of traditional ironmongery, including handles and dummy stays, specifically designed to complement the timeless style of our flush sash windows.
